Kill Or Cure

Simple Minds

You can kill or cure [x7]

The wine is poured right by your table,
The way you dress does not deceive.
I try to turn but I'm not able,
The door is locked, you have the key.

You can kill or cure with your demanding
You can spread yourself all over me
(You can kill or cure)
You can shut me up, by just commanding
(You can kill or cure)
You can kill or cure, but you can't help me
(You can kill or cure)

You tell me there's no place to hide in
No sacred words, no A to Z
Within this world there's no pride here
No place for friends or enemies

(You can kill or cure) [x4]

With your demanding
(You can kill or cure)
You can spread yourself all over me
(You can kill or cure)
You can cut me up, by just commanding
(You can kill or cure)
You can kill or cure, but you can't help me
(You can kill or cure)

You can't help me
You can kill or cure, but you can't help me

You can kill or cure with your demanding
(You can kill or cure)
You can spread yourself all over me
(You can kill or cure)
You can shut me up, by just commanding
(You can kill or cure)
You can kill or cure, but you can't help me
(You can kill or cure)

(You can kill or cure)
