

Light Travels

Simple Minds

Light travels through the universe.
It arrives.
It remains.
Things get better after things get worse.
I feel the same.
Nothing's changed.
Nothing's changed.

Words unravel out of all of us.
They arise.
They refrain.
Things get better after things get worse.
I feel the same.
Nothing's changed.

But there's no need to worry.
Hello, hello, is anybody home?
But there's no need to worry,
Hello, hello, see them come,
See them go,
See them go!

Light travels through the universe.
It arrives.
It remains.
Things get better after things get worse.
I feel the same.
Nothing's changed.

But there's no need to worry.
Hello, hello, is anybody home?
But there's no need to worry.
Hello, hello, see them come, see them go.
But there's no need to worry.
Hello, hello, is anybody home?
But there's no need to worry.
Hello, hello, oh!

Hello, hello.
Hello, hello.
Hello, hello, oh!

Hello, hello.
Hello, hello.
Hello, hello, oh!

Light travels through the universe
