

Midnight Walking

Simple Minds

The age of mass confusion
I've come to the conclusion
Goin' out Midnight Walking
May be the only way to go now
The age where it's essential
To keep it for memento
We're goin' out Midnight Walking
Trying to find somewhere to go now

We go high, high, high
Little the lonely low
High, high, high
Found somewhere to go now
We go high, high, high
Are those people
Little the lonely low
Silent people
We're goin' out Midnight Walking
Trying to find somewhere to go now
Find somewhere to go now

The itch of desperation
There's some new valuation
We're goin' out Midnight Walking
'Cause it's the only way to go now
And the age where it's essential
To make up transcendental
We go out Midnight Walking
We go through heat wave after snow now

We go high, high, high
Little the lonely low
High, high, high
Found somewhere to go now
We go high, high, high
Are those people
Little the lonely low
Silent people
We're goin' out Midnight Walking
Trying to find somewhere to go now
Find somewhere to go now

High, high, high

High, high, high
Are those people,
silent people?
High, high, high
Macho people
Found somewhere to go now
And are those people,
silent people?
High, high, high
Alone the people,
Found somewhere to go now
We go high, high, high
Little the lonely low

We go high, high, high
Watching people
Found somewhere to go now
