

# Natural

Simple Minds

Sometimes it feels like there's no words to say  
Sometimes it feels I've lost my way today

Into a world full of hatred  
Invented in a world of my own  
Filled with skin and contagious  
Could feel I was no longer alone

Had to let some new understanding  
Shoes that they make you feel right  
Even though the hurt that lasts for ages  
Could move from darkness to light

I just wanna be natural  
Show me how to feel warm inside  
Feel the need to be natural  
How can I release all inside  
Stay with me  
Show me how you feel  
Feel you need to be  
I've been loving this fault inside

Ooh natural

Soon heard I felt the goodness was coming  
Felt like I could see in the past  
Am I the only one who feels this obsession  
Am I the only one who's taking this chance

I just wanna be natural  
Show me how to feel warm inside  
Feel the need to be natural  
How can I release all inside  
Stay with me

Sometimes it feels like there's no words to say  
Sometimes it feels I've lost my way today

I just wanna be natural  
I just wanna be natural  
Unnatural  
How can I release soul inside  
I just wanna be unnatural  
Show me how to feel unnatural  
Feel the need to be unnatural  
How can I release soul inside

Ooh natural  
Ooh natural  
Ooh natural
