

Planet Zero

Simple Minds

A whole world on fire

Do you believe in planet zero
Do you believe in all you've seen
Do you ever dream of planet zero
And all those other mysteries

Do you believe in planet zero
Do you believe just where we're from
Ever dream of planet zero
Ever feel that you belong

A whole world on fire
I saw a whole world on fire

If I could find it, I would go there
Leave behind it, take control there

Do you ever take a walk in the shadow
Do you ever lay alone in the night
Do you ever get tired of the same old scene
For the same old ending inside

Do you believe in planet zero
Do you believe in all you see
Do you ever dream of planet zero
And all those other mysteries

A whole world on fire
I saw a whole world on fire

If I could find you, I would go back
Leave behind it, take control there
If I could find it, I would go there
Leave behind it, take control there

I saw a whole world on fire
A whole world on fire
I saw a whole world on fire
A whole world on fire
A whole world on fire
A whole world on fire

Mystery
All those other mysteries
A whole world on fire
A mystery
A whole world on fire
All those other mysteries
A whole world on fire
Mystery
All those other mysteries
A mystery
