

Solstice Kiss

Simple Minds

This spirit shuts its eyes - unhindered by
Anything alive or dead
This spirit slips inside and moves through time
A journey that's inside its head

No explanation - there's no words that chime
Up above this cold abyss
Or did I dream, or did I dream you spoke to me
You woke me with a solstice kiss
You woke me up

You woke me with a solstice kiss
Or did I dream, or did I dream you spoke to me
You woke me with a solstice kiss

The mirror of your eye reflecting eye
Cannot turn away this rage
I see you drift through the realm of darkness into light
There's no other way

No explanation - there's no higher station
Nothing will last
You spoke to me - you woke me up
You woke me with a solstice kiss

Did I dream or did I dream that my whole world
Would turn to bliss
Or did I dream, or did I dream you spoke to me
You woke me up - in the worst place

Did I dream you spoke to me - you woke me with a solstice kiss
Did I dream you spoke to me - you woke me with a solstice kiss

Did I dream or did I dream you spoke to me
You woke me with a solstice kiss
Did I dream or did I dream that my whole world
It turned to bliss - solstice kiss
Solstice kiss
