

# Spirited Away

Simple Minds

I'm not a complicated guy  
I like life as simple as can be  
There's so much I don't understand  
So much I fail to see

But we got spirited away  
Got separated in the night  
Somehow we drifted from our path  
Spirits in the night  
Spirited away

Somehow the doors became unlocked  
And our love just slipped away  
Back then I hoped that we could talk  
Though I don't know what I'd say

But we got spirited away  
And separated in the night  
Somehow we drifted from our path  
Spirits in the night  
Yeah we were spirited away  
Into some time some other place  
Where I would learn to live with lies  
And I would never see your face  
Spirited away

Years have passed since then  
So many moments I have spent  
Memories don't fade with time  
Maybe this is how it's meant  
That we would separate like stars  
Together since birth  
No longer see things from afar  
No longer walk on the same earth

Cos we were spirited away  
Got separated in the night  
Yeah we drifted from the path  
We took our own internal flight  
Yeah we were spirited away  
Into some time some other place  
Where I would learn to live the lie  
But I would never see your face  
Yeah we were spirited away

I'm not a complicated guy  
I like life as simple as can be  
There's so much I don't understand  
So much I fail to see

But we got spirited away..
