Utopia

Simple Minds

Utopia, Utopia

Couldn't take it, last song
Had to listen, I put it on
Body trembled, needle fell
Music played somewhere else

High above the air is fading
Utopia, welcoming me

Did you see the light show?
Did you feel the falling snow?
Feel it on your skin?
Dancing to Arcadia
Did you feel the cold flakes?
Catch them in your hand?
Kissing in a solar storm?
Kissing like there was no end?

Oh would you wait for me?
'Cause I can't tell
If these memories
Belong to...

Utopia, Utopia
Utopia, Utopia

Earth was shaking, get dragged along
On the dance floor, was not alone
Feeling breathless, I couldn't tell
Was transported to somewhere else

High above the air is free
Utopia, welcoming me

Did you see the light show?
Did you feel the falling snow?
Feel it on your skin?
That's the way [?] glows
Did you feel the falling snow?
Moving to Utopia

Did you see the light show?
Did you feel the falling snow?
Feel it on your skin?
Dancing to Arcadia
Did you feel the cold flakes?
Catch them in your hand?
Kissing in a solar storm?
Kissing like there was no end?

But would you wait for me?
'Cause I can't tell
If these memories
Belong to...

Utopia, Utopia

Utopia, Utopia
Utopia, Utopia
Utopia, Utopia

Oh would you wait for me?
