

Who Killed Truth?

Simple Minds

People coming together
Feeling inside
Stop the illusion
One that no one can hide
People coming together
Wonder what you might say
So who killed truth now anyway?

Who killed truth?

You don't like the voice that's calling
You don't see the way
How all of you stuck in the shadows
Get by from day to day
In the center, in the town
There's a place, there's a space, there's a sound

People coming together
Feeling inside
Stop the illusion
One that no one can hide
Looking for a mission
Wonder what you might say
So who killed truth now anyway?
Who killed truth is what I wanted to say

You don't see the chins that's coming
You don't even care
But pretty soon you'll so be running
Running away from here
In the center, in the town
There's a place, there's a space, there's a sound

People coming together (Who?)
Stop the illusion (Who?)
Looking for a mission
Wonder what you might say
So who killed truth now anyway?
So who killed truth is what I wanted to say
Who killed truth?
Who killed truth now?

People coming together

People coming together

Who killed truth?
Who?
Who killed truth now?

People coming together (Who killed truth now?)
Feeling inside
Stop the illusion (Who killed truth?)
One that no one can hide
People coming together
Wonder what you might say
So who killed truth now anyway?

People coming together
Feeling inside
Stop the illusion (Who killed truth?)
One that no can hide
People coming together
Wonder what you might say
So who killed truth now anyway?
