

Congratulations

Simple Plan

With a smile on your face
Talking sweet when you say
That you had no clue
You had no clue

But all this time, a perfect plan
To stick your knife in my back
Just like you hoped to
Like you hoped to

But you're the one that's gotta live with what you do
(You're the one that's gotta live with what you do)
Karma karma's gonna come right back for
Karma karma's gonna come right back for you

Congratulations
I hope you're happy now
With the little that you got
Was it worth it?

But just remember
That what goes up comes down
It's a long fall from the top
Congratulations
Congratulations

It must feel good, it must be nice
When your heart is cold as ice
And you feel nothin'
You feel nothin'

But is it hard to fall asleep
To close your eyes, do you see
The payback comin'
It's comin', yeah

You're the one that's gotta live with what you do
(You're the one that's gotta live with what you do)
Karma karma's gonna come right back for
Karma karma's comin' back for you

Congratulations
I hope you're happy now
With the little that you got
Was it worth it?

But just remember
That what goes up comes down
It's a long fall from the top
Congratulations
Congratulations

You're the one that's gotta live with what you do
(You're the one that's gotta live with what you do)
Karma karma's gonna come right back for you

Congratulations (congratulations, congratulations)

Congratulations
I hope you're happy now
With the little that you got
Was it worth it?

But just remember
That what goes up comes down
It's a long fall from the top
Congratulations
Congratulations
Congratulations
Congratulations
