

Everything Sucks

Simple Plan

It used to be fun now it's bringing me down
It's like everything sucks cuz' you're not around

Whoooo-Whoooo

Drive to the beach to watch the sunset
It's pointless I don't even like it
Don't wanna watch another movie
My favorite song means nothing to me

I try to medicate
I try to numb the pain
No matter what I do it's all in vain
My heart was full of love
Now all I do is hate
I fall apart when you are so far away

Please come back to me

It used to be fun now it's bringing me down
It's like everything sucks cuz' you are not around
I never ever should let you run out of town
Now everything sucks cuz' you're not around

All my friends are asking me
Why I've been acting crazy
It used to be fun now it's bringing me down
It's like everything sucks cuz' you're not around

Whoooo-Whoooo

We used to go out till' the morning
But now the party is kinda boring
Went back to where we had our first date
But now I hate the way the food tastes

Please come back to me

It used to be fun now it's bringing me down
It's like everything sucks cuz' you are not around
I never ever should let you run out of town
Now everything sucks cuz' you're not around

All my friends are asking me
Why I've been acting crazy
It used to be fun now it's bringing me down
It's like everything sucks cuz' you're not around

Whoooo-Whoooo
Whoooo-Whoooo

Everything sucks cuz' you're not around

Please come back to me
(Please come back to me)
Please I'm on my knees

It used to be fun now it's bringing me down
It's like everything sucks cuz' you are not around
I never ever should let you run out of town
Now everything sucks cuz' you're not around

It used be to fun now it's bringing me down
It's like everything sucks cuz' you are not around
I never ever should let you run out of town
Now everything sucks cuz' you're not around

All my friends are asking me
Why I've been acting crazy
It used to be fun now it's bringing me down
It's like everything sucks cuz' you are not around

Whooooo-Whoooo
Whooooo-Whoooo

Everything sucks cuz' you're not around
