

# Freaking Me Out

## Simple Plan

What the hell's going on  
Have you gone undercover?  
You were here, now you're not  
Been replaced by another  
Cause it's still your face  
But there's something strange  
Not the one I remember  
Can you please explain  
Did they wipe your brain?  
Is this gonna be forever?  
Cause everything you say  
Everything you do  
Is freaking me out, freaking me out  
You know we used to be the same  
Who the hell are you  
Freaking me out, freaking me out  
Then I swear I thought I knew you  
But all that was yesterday  
And now you turn it around, what's that about?  
Cause you're freaking me out, freaking me out

Think you're real, but you're fake  
Think you're deep, but you're shallow  
You've become, what you hate  
Now you're lost, just a shadow  
So we pull your strings  
Cause it makes no sense  
That you act like you're better  
You can say these things  
To your so-called friends  
And they just might think you're clever

But everything you say  
Everything you do  
Is freaking me out, freaking me out  
You know we used to be the same  
Who the hell are you  
Freaking me out, freaking me out  
Then I swear I thought I knew you  
But all that was yesterday  
And now you turn it around, what's that about?  
Cause you're freaking me out, freaking me out

Wake up, wake up, wake up  
Snap out of it  
Wake up, wake up, wake up  
Snap out of it  
Wake up, wake up, wake up

Everything you say  
Everything you do  
Is freaking me out, freaking me out  
You know we used to be the same  
Who the hell are you  
Freaking me out, freaking me out  
And now  
Everything you say

Everything you do  
Is freaking me out, freaking me out  
So why'd you play your games  
Who're you trying to fool?  
Freaking me out, freaking me out  
And I swear I thought I knew you  
But all that was yesterday  
And now you turn it around, what's that about?  
Cause you're freaking me out, freaking me out
