

Ruin My Life

Simple Plan

I used to lie awake and let you occupy my mind
I used to put you first and always leave myself behind
And I'll admit you got real close but I'll be sleeping fine tonight
Sorry, I don't mean to disappoint you
It didn't ruin my life

Why'd I let you in my head
I never shoulda let you creep in
Every single word you said
Gotta find a way to shake it

You don't wanna let me be
You wanna see me fall to pieces
Tryna put a curse on me
Gotta find a way to break it

I used to lie awake and let you occupy my mind
I used to put you first and always leave myself behind
And I'll admit you got real close but I'll be sleeping fine tonight
Sorry, I don't mean to disappoint you
It didn't ruin my life

Some days I just can't win
You always had to point your finger
But words will never pierce my skin
I finally found a way to shake them

And you can spill your hate on me
Now I know that I can take it
And you're the one who's hurt clearly
You're the one who's really breaking

I used to lie awake and let you occupy my mind
I used to put you first and always leave myself behind
And I'll admit you got real close but I'll be sleeping fine tonight
Sorry, I don't mean to disappoint you
It didn't ruin my life

I used to lie awake and let you occupy my mind (occupy my mind)
I used to put you first and always leave myself behind
And I'll admit you got real close but I'll be sleeping fine tonight
Sorry, I don't mean to disappoint you
You didn't ruin my life
You didn't ruin my life
You didn't ruin my life
