Running Out Of Time

Simple Plan

Es B F As
Es B As B
Es B F As
Es B As B

```
       C#    As    Es F#
It's just another day
         C#    As                  F#     As
and it feels like you're still running late
              C#  As          Es  F#
Cause the times are gonna change
               C# As               F#   As
And you're stuck in your own mentality

         B
You can try to lead us on
              C#
But there's no one else to blame
           Es
We'll be left to clean the mess
              F#
When you're gone

   Es             B           As         B
Running out of time and you just don't get it
                Es          B             F          As
Now you're watching people die and you still don't care
         Es            B            As        B
We're running out of time and you just don't get that
  Cmi     B     As
This is how I feel
              B
There's a million things I hate about you
```
