

# Let Your Hair Down

Simply Red

Baby you know  
More than you show  
Come on over and be with me  
You're someone I'd like to get to know

Someone I'd like to get to know  
Someone I'd like to get to know  
Someone I'd like to get to know  
Get to know

See how it shines  
Long, wavy and fine  
Plenty of love is here on show  
All to make you mine

Let your hair down  
Let your hair down  
Let your hair down  
Let your hair down

Rolling fingers through your hair  
Any way you wanna do  
I just wanna get close to you

Let your hair down  
Let your hair down  
Let your hair down  
Let your hair down

Any way you win  
Let me come back in  
Sweet talking finds a way  
So let the fun begin

Let your hair down  
Let your hair down  
Let your hair down

Rolling fingers through your hair  
Any way you wanna do  
I just wanna get close to you

Let your hair down  
Let your hair down  
Let your hair down  
Let your hair down  
Let your hair down

Close to you
