For those who are in love
I'm with you babies
How can it be that we feel this way?
For those who are a bluff
I fear you ladies, how can you treat little me this way?

It's a drug that brings you pleasure and pain
It's a love that leaves you crying in the rain

Yeah I'm your lover, Oh I'm your lover A ring-a-ling, Ting-a-ling lover A sing-a-ling, Ting-a-ling lover

How can it be when you're with me baby You feel the same way as me? I hope you're not a bluff, 'cos I need you baby Do you feel the same way as me?

There's an invisible contact between us A hope and a dream that the words the poets Have been writing are real

More than a dream

More than just a sex machine

But a lover...
