

Never Be Gone

Simply Red

She said kiss you all
Sends you her love
May the pain in her heart
Soon be gone
She'll miss you all
High on above
And now we must start

To learn to love
Without her
Without her
Thrust in the rainbows of time
She will never be gone
Never be gone
Trust in the rainbows of time
She will never be gone

What are we worth
Some say a lot
Some others will say we are lost
And the earth a mere dot
But I thank you all
For all we have done
And she'd like to end it by saying

She will never be gone
Never be gone
Never be gone
Thrust in the rainbows of time
She will never be gone
Never be gone
Trust in the rainbows of time
She will never be gone
Trust in the rainbows of time
She will never be gone

Trust in the rainbows of time
She will never be gone
