They think I'm crazy but I'm really think they are
Dont come to me and make me feel that I am wrong
Oh yeah I know, oh yeah I know
What they've been talking, what they've been talking (wouh)

I dont think you know me, you're just mad
Focus on yourself so be a man
Baby you should know your life's a lie
You mad (wouh)
Ah, I dont think you know me, you're just mad
Focus on yourself so be a man
Baby you should know your life's a lie
You mad (wouh)

You just mad, you dont know why
You just mad, you dont know why
You just mad, you dont know why
You just mad, now you know why
You just mad, you dont know why
You just mad, you dont know why
You just mad, you dont know why
You just mad, now you know why
