

GUMBO

Sin Boy

I just wanna fuck you baby
I just wanna taste you baby
Is it brown? Is it pink baby?
I can go really deep baby
I'm independent cause I know I'm the one
I know myself I'm not tripping, nah nah
Like you still live in Neverland
I visit you at night Peter Pan
I promise you my stick magic
My tongue is smooth like moonwalking
Show me you side that you wilding
Ill be the best that you had babe
All these people talking too much
All these people flexing too much
Is it me? I'm okay or nuts?
Cause all I care is your touch

Voices all over my head
If you lose me, you'll regret
She's dancing like nobody watching
I want you in my bed
Pussy hot like it's hell
She's dancing like nobody watching
Voices all over my head
If you lose me, you'll regret
She's dancing like nobody watching
I want you in my bed
Pussy hot like it's hell
She's dancing like nobody watching

I keep it real I have no script
I can Pop Smoke without no drill
I can blow up no record deal
I don't give a shit yeah yeah
There is a side that you don't know
I get you high when you go low
Stop playing games cause I'm a pro
You're classy you're my Monroe
Do the dirty job don't leave evidence
You gotta obey me like president
I trust my feelings to the end
Even thought they don't make no sense
Smoking like we on Hawaii
Pussy wet you never dry
New things you gotta try
And no dumb shit I'm mastermind

Voices all over my head
If you lose me, you'll regret
She's dancing like nobody watching
I want you in my bed
Pussy hot like it's hell
She's dancing like nobody watching
Voices all over my head
If you lose me, you'll regret
She's dancing like nobody watching
I want you in my bed

Pussy hot like it's hell
She's dancing like nobody watching

What's my name?
Sin sin boy
She's dancing like nobody watching
