

MEDELLIN

Sin Boy

I'm not here to play games
I will take over the world
Even your mama knows my name
I can steal anybody's spot
Because I'm everything you need
Because I'm everything you need
Because I'm everything you need
I can change your life now

I got your idol begging me for a pic
If you cross me one time you get lost real quick
If she's a messy queen
She better suck on my dick
If I pull up with the Draco
I'ma spray your whole clique
Feel like Einstein
All my enemies stupid, stupid
Ass so fat, pretty face
I might let her use me, use me
Pull up with the nine
Make your whole block rumble
Reggaeton patron, feeling like I'm Pablo
Real rap even if I gotta mumble
Sin Boy: That's your new trouble

I'm not here to play games
I will take over the world
Even your mama knows my name
I can steal anybody's spot
Because I'm everything you need
Because I'm everything you need
Because I'm everything you need
I can change your life now

If I'm not on the top
Top is trash
If I want your bitch
I'm gonna smash
I don't care for fame
All I need is cash
I'm giving my enemies
Panic attacks
Panic attacks
I'm cheating on her
But she loyal only
I'm chasing no bitch
But I'm running the streets (the streets)
Everybody wants a piece of me, yeah
Push me to the edge I will ruin your life
I don't want no revenge just to fuck your wife
Don't call me to the Grammy's don't waste my time
You wanna know how I feel? Like the best of all time

I'm not here to play games
I will take over the world
Even your mama knows my name
I can steal anybody's spot

Because I'm everything you need
Because I'm everything you need
Because I'm everything you need
I can change your life now

All these motherfuckers are lying
Like Medellin is dangerous
Because they wanna act tough
Yeah my ass
The best view when you're fucking high
Hahahaha
Visit Medellin motherfucker
Stop being a pussy
Arigato Mafia
