

Jesus Is Alive

Sinach

What a miracle it is
That Jesus is alive
Lifting holy hands to him
Am a witness that He lives
Do you know, that same Spirit
That raised Him from the dead
That same Spirit
Is alive in me forever

Jesus is alive
The tomb is empty, hallelujah
Death could not hold Him down
My heart is full
He lives in me

What a miracle it is
That Jesus, He's...
How many of you know He is alive?
We're lifting holy hands to Him
As a witness that He lives
Oh, and that same spirit
That raised Him from the dead
That same Spirit
Is alive in my forever

Jesus is alive
The tomb is empty, hallelujah
Death could not hold him down
My heart is full
He lives in me

Jesus is alive
The tomb is empty, hallelujah
Death could not hold Him down
My heart is full
He lives in me

You see death could not hold Him down
Death could not hold
Death could not hold, hallelujah
He died and hung on the cross
On the third day He rose again
Death could not hold Him down, hallelujah

Failure cannot hold me down
Death cannot hold me down
Death cannot hold me down
He lives in me
Death cannot hold me down
Death cannot hold me down
Death cannot hold me down
He lives in me

Failure cannot hold me down
Sickness cannot hold me down
Death cannot hold me down
He lives in me

Death cannot hold me down
Failure cannot hold me down
Sickness cannot hold me down
He lives in me

Death cannot hold me down
Sickness cannot hold me down
Failure cannot hold you down
He lives in me
Failure cannot hold you down
Sickness cannot hold you down
Death cannot hold you down
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
Wave your hands to Jesus

He lives in me
That same Spirit that raised Jesus from the dead

Failure cannot hold me down
Sickness cannot hold me down
Fear cannot hold me down
He lives in, lift up your head
Failure cannot hold me down
Sickness cannot hold me down
Fear cannot hold me down
He lives in me

Death cannot hold me down
Nothing can hold me down
Failure cannot hold me down
He lives in me
Death cannot hold me down
Nothing can hold me down
Failure cannot hold me down
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me

Lift up your hands
Say fear cannot hold me down

Death cannot hold me down
Diabetes cannot hold me down
Blood pressure cannot hold me down
Bad financials cannot hold me down
Lift up your hands
Say "He lives in me"
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me

Lift up your hands
Depression is leaving tonight
Fear has vanished
Healing is taking place in this place
Lift up your hands and receive Him
Sickness cannot hold me down
Death cannot hold me down
There is life
There is power
There's an anointing that destroys every error
Lift up your hands

Sing He lives in me
He lives in me
He lives in me
He lives in me
Every part of my body
He lives in me
Every breath that I take
He lives in me

And my finances
He lives in me
And my home, my family
He lives in me
Raise your hands, say He lives in me
He lives in me
He lives in me
He lives in me

He lives in me
He lives in me
He lives in me
He lives in me
He lives in me
He lives in me

Lift up your hands and worship

Death cannot hold me down
Failure cannot hold me down
Fear...
