

## Final Call

Sinbreed

The black flag's moving in the wind  
Above the crow's nest  
Before our hearts find sweet revenge  
We're not allowed to rest  
We have to leave, no time to lose  
Might be our final race  
We have to find the Kraken  
Will be spitting in its face

We set the sails to hunt the beast  
We're cruising to the utmost east  
So get your blades, we're standing tall  
Go! Go! The final call!

Our Captain wants the Kraken's heart  
And we love to obey  
It has to die - it's personal - we have to find a way  
It took the life of our first mate, we cannot just forgive  
We'll save his soul and have a rum on him  
So he may live

We don't care, if we all die  
The code, it says "eye for an eye"  
We're not pirates for nothing  
Our courage makes us wild and grim  
We're laughing loud into the storm  
Our hearts in flames, but never torn  
So stuff the cannons! Through the haze!  
Let's show him how our guns can blaze!

Our sabres thirst for Kraken blood  
The cannons shoot all what they've got  
We won't rest before its fall  
Go! Go! The final call!  
Go! Go! The final call!  
Go! Go! The final call!
