

Ride On

Sinbreed

Ride on the winds of change

The sound of marching men
Roaring from afar
Armies are gathering
Preparing the final strike

Our future is clear now
Into eternity (we)

Ride (Ride) Ride the winds of change
Feel it blow - Like it was the first day of your life
(Life) Burning in your veins
Break out - Ride on the winds of change

Laughter breaks the night
A new day arise
Rising sun's chasing
The last shadows away

Our future is clear now
Into eternity (we)

Ride (Ride) Ride the winds of change
Feel it blow - Like it was the first day of your life
(Life) Burning in your veins
Break out - Ride on the winds of change

(solo)

Our future is clear now
Into eternity (we)

Ride (Ride) Ride the winds of change
Feel it blow - Like it was the first day of your life
(Life) Burning in your veins
Break out - Ride on the winds of change
