

# Sober Love

Since October

All along the way I know I've been wrong  
But please don't move on  
Cause I need you more than you know  
And I love you more than I show  
Are you really gone?

And what do I need to do?  
For one more chance to love you

I'm wondering, question what is real to me  
Fighting for what we could be  
With a love that is sober  
I'm breaking free, searching deep inside of me  
Finding what I really need  
Is a love that is sober, a love that is sober

At the end of the day I know my weakness is strong  
But our story could live on  
If we could just turn the page  
Then we could rewrite this song  
I'm dreaming that day comes

So what do I need to do?  
For one more chance to love you

I'm wondering, question what is real to me  
Fighting for what we could be  
With a love that is sober  
I'm breaking free, searching deep inside of me  
Finding what I really need  
Is a love that is sober, a love that is sober

I wanna walk through the sand  
I wanna hold your hand  
Like we used to when we were young  
Don't wanna live with this pain  
I wanna dance in the rain  
I need you to stay with me

I'm wondering, question what is real to me  
Fighting for what we could be  
With a love that is sober  
I'm breaking free, searching deep inside of me  
Finding what I really need  
Is a love that is sober, a love that is sober
