Sincere Engineer

That look in your eye is making me sick
This body's broken and it can't be fixed
Cause I'm just so worn out and this is all that I've got
Now I'm throwing up in a parking lot

And all I wanna do is spend the day with you
And all I wanna do is spend the day with you
And all I wanna do, oh
All I wanna do, oh
All I wanna do is spend the day with you

The smile on my face has been wearing thin these days
Come save me from this mess and make me feel okay
And I know just what to say, but I better not
That was all I had, so back I never fought

And all I wanna do is spend the day with you
And all I wanna do is spend the day with you
And all I wanna do, oh
All I wanna do, oh
All I wanna do
