Bless My Psyche

Sincere Engineer

I don't wanna quit
But I don't think I can keep doing this
And go on and on and on and on
Pretending nothing's wrong
'Cuz everything is killing me
It's funny just how living is what brings
You close to dying
And right now I'm not trying

Bless my psyche, it keeps me up nightly
I got a lotta things on my mind making me feel so unlike me
Now I'm just screaming out, just screaming out, just screaming
out
For you to calm me down, calm me down

And I'm a ghost in this ghost town in my head
On the verge of a breakdown, yeah
I'm gross, engrossed in existential dread

I'm a ghost in this ghost town in my head
On the verge of a breakdown, yeah
I'm gross, engrossed in existential dread

Bless my psyche, it keeps me up nightly
I got a lotta things on my mind making me feel so unlike me

On and on and on and on
Pretending nothing's wrong
And on and on and on and on
Pretending nothing's wrong
And on and on and on and on
Pretending nothing's wrong
