Come Out For A Spell

Sincere Engineer

I'm not feeling too well
Can you come out for a spell?
We'll get a drink and waste the day, across my face
I don't feel too good at all
Ripped all the pictures off the wall
I'm lying lifeless inside a dim lit hall

Carry me away
Once and for all
Once and for all
Bury me today
Once and for all
Once and for all
Bring out your dead, echo in my head today
Carry me away, carry me away

All those things that you want me to know
But you don't wanna you don't wanna be the one to say so
Now I'll never know
I'll never know why
I'll just be here until you say goodbye

I'm not feeling too great
Accelerate the suffocation
Do not resuscitate
It's too late for me

Carry me away
Once and for all
Once and for all
Bury me today
Once and for all
Once and for all
Bring out your dead, echo in my head today
Carry me away, carry me away
Carry me away, carry me away
Carry me away

All those things that you want me to know
But you don't wanna be the one to say so
Now I'll never know
I'll never know why
I'll just be here until you say goodbye
