Landline

Sincere Engineer

Hey baby, I'm calling you from a landline
Hey baby, I'm not having a good time
But you see I just gotta hear your voice, one last time
But I know you don't wanna change your mind, change your mind
Hey baby, I'm calling you from a landline

I'm a dial tone and you're an answering machine
I phone everything in and you never answer me
A different time zone, out of my mind, as far as I can be
But if you get this message in time, can you give me a ring?

Hey baby, I'm calling you from a landline
Hey baby, I hope you pick it up this time

I know I talk too much and I never make sense
And I got the phone cord wrapped around, wrapped around my neck
I don't know numbers. I suck at math but I know yours by heart
Please call me back

Hey baby, I'm calling you from a landline
Hey baby, I'm not having a good time

I'm a dial tone and you're an answering machine
I phone everything in and you never answer me
Caller unknown, out of pocket, you really did a number on me
But I kept calling back and even left a message at the beep
