

# Scratched

Sincere Engineer

I scratched, you won  
Chalk it up to bad luck, but I had fun  
I keep telling myself I'll only be gone for a while  
I lie to myself like that sometimes  
It's always so many miles  
Do me a solid, stay for a while

Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though  
Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though

It keeps me up at night  
Rack my brain 1,000 times  
Shaped into a triangle  
Cue the break, start the scramble  
It keeps me up at night  
To think up all my lines  
To calculate your angles  
The stripes and dollar signs  
Do me a solid, stay for the night

Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though  
Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though

I only got one shot at this  
Better put some English on it  
I only got one shot at this  
Magic 8 ball, corner pocket  
I only got one shot at this  
Better put some English on it  
I only got one shot at this  
Magic 8 ball, corner pocket

I only got one shot  
I only got one shot  
I only got one shot  
I only got one shot

Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though  
Could you stay for a while?  
Another day, another mile  
I won't complain when you gotta go  
It's just the way that it is though
