

Trust Me

Sincere Engineer

This is my grand introduction
I'm lyin' face down in the street
For the second time this week
All of my plans failed
All the things I promised you I'll never get around to

I need, I need, I need, I need help
And I yell, I yell, I yell "How do I stop this?"
'Cause I keep, I keep, I keep doing this to myself
And it's coming down, it's coming down like a faucet

And I wanna go outside
I wanna ride my bike
But I feel dead on the inside
I put too much trust in future me
She can't be trusted, please trust me
Everything she says is such a lie

I need, I need, I need, I need help
And I yell, I yell, I yell "How do I stop this?"
'Cause I keep, I keep, I keep doing this to myself
And it's coming down, it's coming down like a faucet

And it's running through the street
It's coming after me
And I might just give in
There's nothing I could say
That'll make you wanna stay
And the thought of it is sinking in
And the thought of it is sinking in
And the thought of it is sinking in

I need, I need, I need, I need help
And I yell, I yell, I yell "How do I stop this?"
'Cause I keep, I keep, I keep doing this to myself
And it's coming down, it's coming down like a faucet
