

Be the One (Interlude)

Sinead Harnett

Rolling for days now
Clouds in my head
How you turn all the noise down
Weight off my chest

When I thought it was improbable
Coz of all of the others before
But you do something I've never known
It compels me to bear you my soul

I wanna be the one
I wanna be the one
I wanna be the one
I wanna be the one

Only one choice now
Just to let us be
Coz I treasure the way you calm me down
How you set me free

When I thought it was impossible
Coz of all of the fuckers before
But you're different you're good to the bone
It compels me to bear you my soul

I wanna be the one
I wanna be the one
I wanna be the one
I wanna be the one
