

Him Too

Sinead Harnett

Maybe I care too much
But knowing you're still in love
Makes me feel bad when I'm with him
Coz I see what you're missing

All this was yours before
I saw your dress in his draw
And I felt the guilt sink in
He says I'm overthinking

So I try to enjoy it
But at what cost
If all that I'm gaining
Is all that you've lost
I know it's over
But it's not over for you

There's nothing I could say
To take your pain away
I know you hate me I know you do
I'm just so sorry I love him too
Coz he's the one you want
And now he's moving on
I know you hate me I know you do
I'm just so sorry I love him too
I love him too

In all my honesty
I never thought he would be
Something more than a friend
Even when you came to an end

But as the months went by
We grew closer and I
Saw the lines as they blurred
A blessing a curse
All because you loved him first

There's nothing I could say
To take your pain away
I know you hate me I know you do
I'm just so sorry I love him too
Coz he's the one you want
And now he's moving on
I know you hate me I know you do
I'm just so sorry I love him too
I love him too

I love him too, I love him too, I love him too
I love him too, I love him too
