

Stickin'

Sinead Harnett

I can see the signs
Something isn't right
So before you even try to tell a lie, now
Know but I know every side, each side of you, ooh

Every step we take
And every circle we go 'round
Only leads us to another route

But you know I'll still be here sticking with you (Oh)
I'll still be here sticking with you (Oh, oh)
Whether you lift me up
Or whether you're taking me down
Baby, I'll still be here stickin' with you

Ready or not
We gonna talk
You got me on lock
But you gotta stop
I get tired of playing games
Ooh, but you been driving me insane

And it's been obvious
The signs were apparent but I stayed true 'cause I loved you
Ain't no way that I'ma give up the fight
But ain't no way that I'ma run a red light, yeah

Every step we take
And every circle we go 'round
Only leads us to another route

But you know I'll still be here sticking with you (Oh)
I'll still be here sticking with you (Oh, oh)
Whether you lift me up
Or whether you're taking me down
Baby, I'll still be here stickin' with you

It's like, yes I'm crazy
But I kinda gotta be
You bring it outta me
The louder me
The onomatopoeia, pop, boom
Concrete jungle, where I be these days
You swing my vine, when you feel need to leave LA

Shawty call me sticky tape
I call her kissing Kate
Oh, I'm the bad guy?
Oh, I'm the animal?
Hardly ever listenin'
Ever listenin'
I drive you crazy
You ride me manual

But you know I'll still be here sticking with you (Oh)
I'll still be here sticking with you (Oh, oh)
Whether you lift me up

Or whether you're taking me down
Baby, I'll still be here stickin' with you
(I'll still be here stickin' with you)
(Stickin')
(Here with you)
(I'll still be here stickin' with you)
(Stickin')
(Here with you)
