

Where you think you're going with your hands all clean  
And your clothes all neat  
And your head so big now  
Where you think you're going when our air ain't clean  
And there's no more trees  
And you just can't breathe  
We better slow down

I wanna stop traffic  
I wanna stop plastic  
I wanna cause havoc  
'Cause I'm fantastic  
I wanna drop acid  
I wanna be classic  
I wanna be tragic  
I just want you to know

I'm gonna float  
I'm gonna float  
I'm gonna float up to the ozone

Where you think you're going now with all those dreams  
You don't wanna need  
But you just can't leave  
Where you think you're going when there's no more scene  
And there's no more steam  
And we all can't breathe  
Yeah, it's a showdown

I wanna stop traffic  
I wanna stop plastic  
I wanna cause havoc  
'Cause I'm fantastic  
I wanna drop acid  
I wanna be classic  
I wanna be tragic  
I just want it to show

I'm gonna float  
I'm gonna float  
I'm gonna float up to the ozone  
I'm gonna float  
I'm gonna float  
I'm gonna float up to the ozone

I'm gonna float  
I'm gonna float  
I'm gonna float up to the ozone

I wanna stop traffic  
I wanna stop plastic (I'm gonna float)  
I wanna cause havoc  
'Cause I'm fantastic (I'm gonna float)  
I wanna drop acid  
I wanna be classic (I'm gonna float)  
I wanna be tragic (Up to the ozone)  
I just want you to know
