

Signed, sealed & delivered

Sinner

there I'm sitting now
around me everything
works cold and empty
there is no more faith
who says, you would have
a good character lies
your little black heart strikes
on the wrong side
signed, sealed and delivered
it's my wounded heart
I knew it from the start
signed, sealed and delivered
I can't wait any longer
can't get any wronger
your view changed
and at the end i failed
don't expect me to die
with the pace of a snail
I could not do it
what has happened here
fought and crawling upward
I mark pain property
signed, sealed and delivered
it's my wounded heart
I knew it from the start
signed, sealed and delivered
I can't wait any longer
can't get any wronger
everything I felt you
I forget the blue
your words are full lies
there's no more desire - no
here I'm sitting now
around me everything
works cold and empty
there is no more faith
signed, sealed and delivered
it's my wounded heart
i knew it from the start
signed, sealed and delivered
i can't wait any longer
can't get any wronger
