

## Until It Hurts

Sinner

To my sweet surprise  
You just said nothing  
It feels like a ritual  
To make believe  
The words keep falling  
From your mouth  
Yes, I know it's hard  
Not to cross the line  
Reach out and scream  
We take it as it's natural  
Situation is horrible  
The more we wait  
There's less belief  
In sweet salvation  
Until it hurts you see  
Until it hurts I'll be the one  
You say that you can't take no more  
It just keeps getting worse  
I count the words  
Until it hurts  
Until it hurts you see  
Until it hurts I'll be the one  
You say that you can't take no more  
It just keeps getting worse  
I count the words  
Until it hurts
