Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
we'll take you for a walk
it's a getaway
I know the road to find the exit
mixing reality with our fantasy
we've got a sonnet for the \min
a symphonie
a cure for babalaaz on a cloudy day
a gentle melody
music for you and me
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
we've got a clear shot for the heart,
dead on target
a bullet to let live, to dream
no adrenaline, a vitamin
we've got a breeze for the soul
we'll take off to make a loop, a blow
a gentle melody
music for you and me
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
Hey, we're gonna take it easy
we're gonna take it easy
we're gonna take it easy
