

Drown

SION

I am pariah
Easier to push away
Bury desire
Easier to end this way

This is what the pain is for
Sever all the memories
This is what the rain is for
Wash away so easily

(And the sky is falling)

You could never bear this crown
Somehow I'm too blind to see
There's nowhere to go but down
Close your eyes and drown with me

You are messiah
Faith in you is all I've known
Thief or a liar
Take it all I'll never know

This is what the pain is for
A life to live and never learn
This is what the rain is for
The ashes still can burn

You could never bear this crown
Somehow I'm too blind to see
There's nowhere to go but down
Close your eyes and drown with me

You've failed me for the last time
I've got to save myself
In the end the sacrifice was worth the risk
Death and freedom means I truly exist

(And the sky is falling)

You could never bear this crown
Somehow I'm too blind to see
There's nowhere to go but down
Close your eyes and drown with me

You could never bear this crown
Somehow I'm too blind to see
There's nowhere to go but down
Close your eyes and drown with me

Close your eyes and drown
