

Endless War

SION

I still fight an endless war
Don't lose sight of what its for

Through the dirt
Through persecution
I wear my wounds
Through the dirt
Through persecution
I wear my wounds

I still fight an endless war
Leaving you nothing left to claim
Don't lose sight of what its for
Too many bodies without a name

Follow through see it to the finish
We know this war is endless
I have lived
The promise and the break
Here comes the beating
I know there's more to take

Even when it's raining down
You know I won't leave you behind
Even when you're facing down
You know I won't leave you behind

I still fight an endless war
Leaving you nothing left to claim
Don't lose sight of what its for
Too many bodies without a name

I still fight an endless war
Don't lose sight of what its for
