

Flying Fish

SION

Swimming (Swimming, swimming)
Between these walls of concrete
But then, I suddenly see sharkfins (Shark fins, fuck no)
All those deep red, bloody teeth
Wanting my identity

So I'ma spread my wings, jump outta water and fly to space (ah-oooh)
I made the biggest mistake
Thought I'd be free from dependance
But now I'm dead, yeah, 'cause in the sky there was a seagull

Oh, listen to me, little flying fish
I had everything but experience
Jumping right into extinction
No, it wasn't cause of incompetence
I just didn't know that the surface
Was as much of a hell as where we're from
(From, from, from, from, from)

Shut up (Shut the fuck up)
They're gonna find you and
Rip you apart and take up your mind (Oh, zombie)
Diving (Jump off, let go)
How could I ever forget what it was like to believe?

So I'ma spread my wings
Jump into water and let me fade, yeah
I won't make any mistakes
I will be free from dependance
I will be dead, yeah, 'cause in this life there is no freedom

Oh, listen to me, little flying fish
I had everything but experience
Jumping right into extinction
No, it wasn't cause of incompetence
I just didn't know that the surface
Was as much of a hell as where we're from

Let's begin the hunt, let's give up the jump
We must turn into one of those monsters to be numb
Let's begin the hunt, let's give up the jump
We must turn into one of those monsters to be numb

Oh, listen to me, little flying fish
I had everything but experience
Jumping right into extinction
No, it wasn't cause of incompetence
I just didn't know that the surface
Was as much of a hell as where we're from
