Great Deceiver

SION

Always
It always seems you're staring through me
Can you keep the secret
You're the perfect weakness

Now its too late
Die slow when you live the nightmare

Relive the torture everyday
Even a true believer
My life I watched it fade away
Fell for the great deceiver

Will you pray for me
She's the devil and she's in disguise
Will you pray for me
Left for dead in the blink of an eye

Don't let me speak
Cut my throat
Don't let me speak

Relieve the torture everyday
Even a true believer
My life I watched it fade away
Fell for the great deceiver

If this, if this is my fate
Then why do I always tempt it
Helpless as I draw closer
Entwined there's no resistance

Relieve the torture everyday
Even a true believer
My life I watched it fade away
Fell for the great deceiver

Relieve the torture everyday
Even a true believer
My life I watched it fade away
Fell for the great deceiver

Even a true believer
My life I watched it fade away
