

Inside The Hollow

SION

I'm getting tired of crying
The tears are cracking through my mask
I'm getting tired of trying
There's nothing wrong if you don't ask

Wanting more but I know
(I never) I never asked for this

My life in your hands
You won't feel a thing
I'm falling again
You won't feel a thing
I lost it all and then I lost it all again
I'm going numb

I'm getting tired of lying
I'll save the truth to tell you last

Wanting more but I know
(I never) I never asked for this

My life in your hands
You won't feel a thing
I'm falling again
You won't feel a thing
I lost it all and then I lost it all again
I'm going numb
I'm going numb

There's no light at all
No light inside the hollow
There's no light at all
No light, no light

My life in your hands
I'm falling again

My life in your hands
You won't feel a thing
I'm falling again
You won't feel a thing
I lost it all and then I lost it all again
I'm going numb
I'm going numb
