

Something To Live For

SION

I have never felt so helpless
Nowhere to point the finger no one to blame
I will never trust my captor love and death are one and the same

Spirit broken flesh is weak
Even now I live with the answer
Spirit broken flesh is weak
Amputation remove the cancer

I keep fighting but I know I'm losing the battle
And it's hard to see the sun
I keep trying when I know there's something to live for
And I'm not the only one

You're not the only one
I have never felt so hopeless
Facing the fear holds me I scream in vain
I'm wasting away
Scavengers pick me clean
Is this my judgment
Where my demons feed on me

I keep fighting but I know, I'm losing the battle
And it's hard to see the sun
I keep trying when I know there's something to live for
And I'm not the only one

I didn't change for you
I did it for myself
I didn't change for you
I did it for myself
I did it for myself
I did it for myself

I keep trying when I know there's something to live for

I keep fighting but I know, I'm losing the battle
And It's hard to see the sun
I keep trying when I know there's something to live for
You're not the only one
I keep fighting but I know I'm losing the battle
I keep trying when I know there's
Something to live for
And im not the only one
