

Let Go

Siouxsie and the Banshees

Nautical mile stretch out the years
A space walk, untethered, let go of your fears
A pioneering seed with every step you breed
Walks away from the crouching shuttle

And the countdown crow
Around the globe
Says let go

Machine in charge with the wry smile flickers
On his red and blue dials
Nautical mile stretch out the years
The back-pack suffocation with your creeping fears

And the countdown crow
Around the globe
Just lets go
On an endless limbo

And the countdown crow
Around the globe
Just let's go
Let Go
