

## Switch

Siouxsie and the Banshees

Different lives  
In different places  
Familiar problems  
Same old faces

Shuffle lives  
Into wrong categories  
Cross the wires  
And fuse humanities

Watch the muscles twitch  
For a brand new switch...

Scientist G.P.'s  
With patient guinea pigs  
Curing their headaches  
With drastic side-effects

Watch the muscles twich  
For a brand new switch?

Doctor rectorates  
Condescending from on high  
For all hallucinators  
See druggist in the sky

Vicar experiments  
But it's blasphemy  
Dismissing thought of progress  
As the mark of devilry  
Switch

People walk  
And even talk  
People listen  
Then they halt

Something blows up  
Won't come down  
Scattered muscles twitch  
Too late to switch
