Overload

Sir Michael Rocks

Bad, bad, bad, bad
Yea, Michael (bitch)
Ya bad, bad, bad, bad
Yea
I said oh my God, we going overboard if we
Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
Oh my God, we going overboard if we
Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
So you in or is you out, you either are or you ain't
Broke all of them hearts and you ain't got a scar on yo face
But hey I hit it and ghosted too, some bitches is close to you
It's not what you supposed to do but I was running reckless
I left some pillow cases stained salty and soaked
From women that love me but wanna toss me off of the boat
So get it don't you, don't let them broken hearts try and haunt you
It's a risky ass game, we can play it if you want to
It's like Russian Roulette, or that other one with the blade
Where you stab between your fingers while increasing the speed
Man, somebody gon' get hurt or worse feelings get killed
When feelings get caught but I ain't ever telling her talk
I said oh my God, we going overboard if we

Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
Oh my God, we going overboard if we
Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
If I explode, you the detonator
Keep it together when we separated
Don't ever let 'em see you sweating baby
Just keep 'em guessing 'cause you elevated
You know the rules, they writing fan fiction in my views
We creating and shit, don't let 'em tell us what to do
I think I, I think I, I think I'm better wit you
But if we sink our own ship then it's irrelevant (true)
We alive, ps5, Xbox, V reality
The games get more dangerous when you up in the salary
It's more to lose, more to gain, people can change
So hold me down already, go to sleep with the thing
I said oh my God, we going overboard if we
Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
Oh my God, we going overboard if we
Play the same game again mmm baby
Hold it down, you know the code
You hold me down so I won't explode
