

Are We Having Any Fun?

Sir Sly

I've been drunk and afraid
For just under 2,000 days
The flood has been rising
And now in my car it has covered my face
Did I jump the shark?
I'm lonely and losing the plot
This tired old heart has been thumping and pumping
And coughing up blood

(Are we having fun?)

Are we done yet?
Are we having fun yet?
Never had a good night drunk and alone
Are we done yet?
Are we having fun yet?
What does happy look like?
I don't really know

Are we having any fun?

I got drunk on the plane
It was fun
So I did it again (And again and again)
Fighting a giant
A little like David, Goliath is slain
Oops I did it again
Loverboy's got some blood on his hands
Not in a literal sense
I don't think that I made any sense

Are we done yet?
Are we having fun yet?
Never had a good night drunk and alone
Are we done yet?
Are we having fun yet?
What does happy look like?
I don't really know

Are we having any fun?

Blue collar bourgeoisie
My new drug is reality
Step step 'cause I'm still obsessed
Are we having fun yet?

(Are we having fun?)

Are we done yet?
Are we having fun yet?
Never had a good night drunk and alone
Are we done yet?
Are we having fun yet?
What does happy look like?
I don't really know

Are we having any fun?

Are we having any fun?
