

## Citizen

Sir Sly

On the 5  
I see a sign  
"You need Jesus"  
"You need Jesus"  
Then I sigh as my insides start their screaming  
Start their screaming  
Holy Spirit, can you hear us?  
I feel lifted  
I feel fearless

I don't wanna be your perfect citizen  
Dive out the car, it's headed in the wrong direction  
I don't wanna be a good boy and keep my mouth shut  
Keeping quiet for fear instead of opening up

Good luck on love  
Good luck on love  
Good luck on love  
Good luck on love  
Love love love

Little red hat  
Signal white pride  
What are you thinking?  
What are you thinking?  
White lie  
Sign of the times  
What's the dream that you've been dreaming?  
You've been dreaming?  
You will never make anything great again  
And you're not my friend  
Can I get an amen?

Good luck on love  
Good luck on love  
Good luck on love  
Good luck on love  
Love love love
