

Love in and love out
Love in, love in, love in
Love in and love out
Love in, love in, love in
Love in and love out
Love in, love in, love in
Love in and love out
Love in, love in, love in
Love in and love out

Flew in then flew up
Fucked off I screw up
Drank too much and threw up
Blank out how I grew up
"You invited this by doing what I wouldn't do"
Icarus but opposite - this hell I crafted you
5 is on my mind and you are merely 2 by 2
Wash you white as snow until there's nothing left of you
And I am God (I am a God)
Is this what I want?

Love in and love out
Hating you doesn't mean I love myself now
Put you down, I put myself down
Love in and love out
Hating you doesn't mean I love myself now
Put you down, I put myself down

Love in and love out
Love in, love in and love out
Love in
Love in and love out
Love in, love in and love out
Love in

Murdering you in my mind and I'm killing myself
This is the shit I know nothing about
Fuck it on God I feel like a mess
Love in, love out raising my hands
Maybe the reason I feel so depressed
I couldn't meet all these perfect demands
I wear the weight of the world on my chest
Love in, love out - fuck it I'm
(Love in and love out)
Blessed
Fuck it I'm
Blessed
Fuck it I'm, fuck it I'm
Fuck it I'm blessed
