

Easy

SiR

When I'm with you
Everyday is better
Even the sun doesn't know what to do
When you sit right beside her
Baby its true

Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy

Could it be
Cupid hit me a hundred times
But your love and mine
Love is blind
But I'm glad it found me
If this is a crime
Then give me life
Cause I don't wanna be free

Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy

The closer that we get to each other the more
I realize you were made for me
I don't know what voodoo you do to keep me here
But baby don't change a thing
Just tell me that you want me
Just tell me that you need me
Baby you complete me
And loving you is, loving you is

Loving you is easy
Loving you is easy
Loving you is easy (hey!)
Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy

I ain't never had lover
No other lover
No other lover
No other lover like you

(I) Said, I ain't never had lover
No other lover
No other lover
No other lover like you

(I) Said, I ain't never had lover
No other lover
No other lover
No other lover like you

Loving you is easy
Loving you is easy
Loving you is easy (hey!)
Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy
Loving you is easy
